

# University Management System

## **Contribution Statement**

### **My contribution to the project - Jaya Amit Sai Gurralla (jg6660)**

I have implemented the following tasks and subtasks in the project:

I took up the responsibility of filling up the data of the following datasets:

1. Admins\_employ
2. Buildings\_belong\_to
3. Dorms
4. Enroll
5. Taught
6. Employs

I have worked on the following modules and Sub- modules in our University Management System:

1. Student:
  - a. Profile
  - b. Student Accessibility Request
  - c. Request Status Update
  - d. Fees Payment
  - e. Classes
  - f. Dorm Information

### **My teammate's contribution to the project are:**

#### **1. Paul Sannihith Reddy Singareddy (ps4351)**

He filled up the data of the following tables:

- A. Students
- B. Classes\_located
- C. Rooms\_have
- D. Live
- E. Send\_to
- F. Universities

He also implemented the following modules in our University Management System:

1. Professor Module
  - Professor Enrollment
  - Professor Information
  - Paychecks
  - Accessibility Requests
2. Admin Module
  - Profile
  - Professor Payrolls
  - Accessibility Requests
  - Student Payment Activity

## **2. Puneeth Kasukurthi (pk2473)**

He filled up the data of the following tables:

- A. Professors
- B. Schools\_partof
- C. Payments
- D. Pay
- E. Apply\_to
- F. Requests

He also implemented the following modules in our University Management System:

1. University Module
  - University Information
  - Buildings Information

We have all worked together on the idea, implementation design, debugging, report and presentation. We performed it as a group to get a better understanding about the project.
